Delivered by Carrier \$1.25 Per Month

\$10 REWARD.

A reward of \$10 will be paid for information that will lead to the arrest and conviction of parties stealing The Bonanza from subscribers.

TO SUBSCRIBERS.

Parties who do not receive their papers, or who have any cause of complaint, will oblige The Bonanza by notifying this office.

All legal advertisements will be charged for at the rate of \$2.00 per square for the first insertion. There will be no exception to this rate. No affidavit of publication will be made until the advertisement is paid for.

No advertising cut, one inch square or smaller, will be accepted unless made of metal. No wood base cuts of this size will be used. Wood cuts are dangerous to forms and press.

Entered at the Postoffice in Tonopah as second-class matter

The Attitude of the United States

According to the attitude of the Washington officials, the stability of the Huerta regime in Mexico will depend entirely upon the extent to which Huerta and his followers will recognize the Mexican constitution and the directing powers of the Mexican congress.

So far as the record goes, the form of the Mexican constitution appears to have been observed, in the perfunctory elevation of the minister for foreign affairs to the presidential office for an hour or two before his replacement by a provisional president chosen by the congress. The real test is looked for in the provision for the holding of popular elections and the willingness of the defacto government to surrender control to the officers chosen by the people.

So long as Mexicans alone are involved in the summary executions and deportations, there can be no interference on the part of this government, although it has been suggested that possibly Ambassador Wilson and other members of the diplomatic corps in the City of Mexico might unofficially use their influence for mercy.

In the meantime there seems to be little that can be done by the United States save to wait and to watch and be prepared to step in the moment any overt act resulting in the loss of foreign lives and property occurs through anti-foreign sentiment.

The assassination of Madero and Suarez, evidently with the connivance of Huerta and his followers, is an aggravating blot upon the pages of civilization and all over the world will be heard a horrified protest. And yet it must be remembered that this method of getting rid of troublesome people was practiced continually during the Diaz administration, the victims as a rule, however, being of such minor importance that their taking off was not heralded all over the world.

The Mexican question is a perplexing one. While there is as yet no sufficient cause for intervention by the United States—and intervention means annexation—the tenor of American sentiment is rapidly approaching the point where a legitimate excuse for intervention would be almost welcomed.

Emperor William of Germany lost a lawsuit in the German courts. Emperor Bill evicted a tenant from his land. Things have come to a pretty pass that even a king cannot do as he wants to. A century ago the king would have fired both tenant and courts out of his domain and the act would not have been questioned.

A bill has been introduced in the senate forbidding the change in color or size of paper money. To change a bill of the lowest denominations has been a forbidden luxury of the editor for years, but we appreciate the efforts of the senator who is back of the bill.

Ray Baker, the hero of a hundred love affairs, is reported to be in Washington, D. C. Probably Ray was on the committee to welcome the suffragettes who hiked from New York to the capital. If this is the case another engagement is due to be announced.

The Vernon team of the coast league will be known as the Venice team this season. The difference in the name will make no difference as long as Happy Hegan is allowed on the coaching lines. Just keep your eye on Venice.

The army of suffragette hikers have completed the tramps from New York to Washington. Now that the walk is over, what have the members of the party really accomplished, excepting having their pictures appear in the papers.

Woodrow Wilson, president-elect of the United States, is a private citizen now. It would be a poor joke if he was grabbed for jury duty and would be unable to attend the inauguration ceremonies.

With peace imminent in the Balkans and the Mexican war waning, the baseball fans have every reason to joyously look forward to the time that they will occupy the center of the stage.

The maiden speeches of a number of members of the state legislature have been exceedingly brief—consisting generally of the one word "present" when the roll is called.

The startling news comes from Washington that no more free seeds will be distributed. That means that editors hereafter will not have soup during the seed season.

"Women surprise Baptist preacher" is the headline over a story appearing recently in a Reno paper. Better men than preachers have been surprised by women.

A host of former members of the Tonopah will soon give the halls of congress. This, in addition to the present living decorations of living buried lawmakers.

There is one sure way to distinguish a married man from one who is single. The married man uses a nail or a piece of wood for a suspender button.

From the accidents occurring in the taking of the moving pictures of this camp the scenes should present sufficient life to suit the most fastidious.

BIG FOUR MILL TO SOON START

(Continued from page 1)

fraction, but there is no reason to change the estimate of the importance of this great discovery by Ryman and Cherkas. Many chert-drill holes have been put down and a few blasts fired to prospect the big deposit, and everything tends to strengthen the showing of ore, the values ranging from \$10 to \$20 or \$40 per ton across a width of 50 feet of the enriched schist which forms a part of the ridge on which the discovery was made.

The ore will be mined with 20 per cent powder, so as to shatter it as much as possible, and then a large part of it will be screened to throw out waste and raise the general values of the product. There is much of it, however, that will be milled without screening, because it is of high enough grade and the values are in the rock as well as in the seams and "lines." After a preliminary shipment from the surface a hoist will be put up on the 60-foot shaft that was sunk just at the edge of the deposit, and the ore will be "glory-holed" through this shaft.

SATURDAY NIGHT DANCE WILL BE HELD TONIGHT

The regular Saturday night social will be given tonight at the Miners' Exchange hall. A four-piece orchestra has been engaged and the best of music will be furnished. The Saturday night dances have been in vogue for the past year and have become social events of importance as they are always attended by a good crowd of dancers.

BAN ON CARTOONS

INDIANAPOLIS, Ind., March 1.—The Indiana senate has passed the house corrupt practices act bill, which makes it a crime in Indiana for a newspaper to publish "any article or cartoon" tending "to expose to ridicule, hatred or contempt" any person at any election, and providing a fine of from \$500 to \$1000 and imprisonment for not more than a year for each offense.

SENATORS LEAVE FOR CAMP

WASHINGTON, March 1.—The first squad of players of the Washington Americans will leave Sunday for the spring training camp at Charlottesville, Va. Virtually all the young stars will be in the party. The remainder of the players will report late next week.

CHRISTIAN SCIENCE SOCIETY

Services Sunday morning at 11 a. m. Subject, "Christ Jesus." The public is cordially invited. Sunday school at 12:15 p. m. Church at corner Florence and Cross avenues.

LOCAL TEACHER MAKES EMBARRASSING MISTAKE

A teacher in one of the Tonopah primary grades, with a pile of books under her arm, was hurrying to the school house yesterday morning. Just as she passed the State Bank corner she met a gentleman whom she thought a pupil in her room.

"Good morning," she said with a cheery smile. Instantly she saw, by the quizzical expression on the face of the man, addressed, that she had made a mistake. Intending to correct it she added quickly:

"Oh, pardon me! I thought you were the father of one of my children."

NO MORE FREE SEEDS

WASHINGTON, March 1.—Congressional distribution of seeds was ended by the senate eliminating from the agricultural appropriation bill a provision appropriating \$250,000 for that purpose.

Among the more important amendments adopted was the bill by Senator Hoke Smith creating a bureau of markets in the department of agriculture.

The bill as it passed the senate carried \$8,000,000, an increase of nearly \$1,000,000 over the house bill.

BACKACHE IS A WARNING

TONOPAH PEOPLE SHOULD NOT NEGLECT THEIR KIDNEYS

Backache is often nature's most frequent signal of weakened kidneys. To relieve the pains and aches, to remove the lameness when it arises from weakened kidneys, you must reach the cause—the kidneys. If you have pain through the small of your back, urinary disorders, headaches, dizzy spells, or are nervous and depressed, start treating the kidneys with a tested kidney remedy.

Dean's Kidney Pills have been proved good and are especially for weak kidneys. Dean's have been used in kidney trouble for over 50 years. Here is convincing proof of merit. It comes from this locality.

W. T. King, W. King st., Carson City, Nev., says: "I suffered so severely from backache that I could hardly stoop. Dean's Kidney Pills were the only remedy that had an effect on my trouble, and I am glad to say that they made a complete cure."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Dean's—and take no other.
